FEDERAL COMMUNICATIONS COMMISSION

Notice of Public Information Collections Being Reviewed by FCC For Extension Under Delegated Authority 5 CFR Part 1320 authority

October 13, 1995.

The Federal Communications Commission, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and

clarity of the information collected and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

The FCC is reviewing the following information collection requirements for possible 3-year extension under delegated authority 5 CFR 1320, authority delegated to the Commission by the Office of Management and Budget (OMB).

Written comments should be submitted on or before December 19, 1995. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

Direct all comments to Dorothy Conway, Federal Communications, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to dconway@fcc.gov.

For additional information or copies of the information collections contact Dorothy Conway at 202-418-0217 or via internet at dconway@fcc.gov.

OMB Approval Number: 3060-0436.

Title: Cordless Telephone Security Coding.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 100.

Estimated Time Per Response: 2 hours.

Total Annual Burden: 200 hours.

Needs and Uses: Cordless telephones must incorporate digital security coding to protect the public switched telephone network from unintentional seizure and dialing, and user's from unintentionally ringing. An attestation of compliance, and the means and procedures used to ensure the required protection must accompany any application for authorization filed for the subject equipment.

OMB Approval Number: 3060-0004.

Title: Environmental Information Collection Requirements Sections 1.1307, 1.1308, 1.1311.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Individuals or households; State, local or tribal governments; Not-for-profit institutions; Businesses and other for-profit; Small businesses or organizations.

Number of Respondents: 1,156.

Estimated Time Per Response: 2.1 hour.

Total Annual Burden: 2,428 hours.

Needs and Uses: Under the terms of the National Environmental Policy Act (NEPA) of 1969, the FCC is required to determine whether the transmitters it licenses or authorizes significantly affect the quality of the human environment. Since the emission of potentially hazardous radiofrequency radiation is one of several possible environmental effects, the Commission has established rules for evaluating human exposure to RF radiation from FCC-regulated transmitters. The environmental information required by section 1.1307 is reviewed by attorneys, engineers and paraprofessionals to determine whether the environmental evaluation is sufficiently complete and in compliance with the Commission's Rules to be acceptable for filing. If collection of this information were not made the FCC would not ensure compliance with the National Environmental Policy Act (NEPA), specifically, to minimize the potential for significant environmental impact from radiofrequency (RF) radiation from FCC-regulated facilities.

OMB Approval Number: 3060-0421.

Title: Price Cap Rules.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 13.

Estimated Time Per Response: 20 hours.

Total Annual Burden: 1040 hours.

Needs and Uses: Under the Commission's price cap rules, tariffs for new services are supported by new service showings which may include the results of net revenue test. As part of the net revenue tests, carriers project their future revenue and costs for new services. Carriers then file the required reports to enable the Commission and the public to compare their actual revenues and costs with their earlier projections. The Commission staff uses these reports to gauge the accuracy of these carriers' earlier forecasts so that it can better evaluate the reliability of future new service showings. Without such an evaluation, the risk of unreasonable or otherwise unlawful rates would be significantly increased, to the detriment of those who subscribe to these services.

OMB Approval Number: 3060-0307.

Title: Section 90.629(a) Extended implementation period.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: State, local or tribal governments; Businesses or other for-

profit; Not-for-profit organizations; Small businesses and organizations.

Number of Respondents: 100.

Estimated Time Per Response: 1 hour.

Total Annual Burden: 100 hours.

Needs and Uses: Section 90.629(a)

provides certain categories of licensees the opportunity to extend the time within which system construction is required, upon submission of a justification. This allows entities requiring a longer construction period flexibility.

OMB Approval Number: 3060-0280.

Title: Section 90.633(f)&(g)

Conventional systems loading requiring (wide area systems).

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: State, local or tribal governments; Businesses or other for-profit; Not-for-profit institutions.

Number of Respondents: 15.

Estimated Time Per Response: 1 hour.

Total Annual Burden: 15 hours.

Needs and Uses: Section 90.633(f)&(g)

provides for the authorization for wide area or ribbon systems upon a appropriate showing of need. The information is used to determine if such systems should be authorized, thus maintaining spectrum efficiency.

OMB Approval Number: 3060-0273.

Title: Section 94.43 Procedure for obtaining special temporary authority.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit; State, Local or Tribal Governments; non-profit institutions; small businesses or organizations.

Number of Respondents: 125.

Estimated Time Per Response: 1 hours.

Total Annual Burden: 125 hours.

Needs and Uses: Section 94.43 specifies certain circumstances the Commission will consider in granting a "Special Temporary Authorization (STA) to permit an applicant to conduct operations for up to 180 days without going through the normal application forms and procedures set out in Part 94. The requirement is necessary so that FCC personnel can determine if the grant of an STA is warranted, and to allow the Commission to have certain minimum information about the station's characteristics should interference problems arise.

OMB Approval Number: 3060-0290.

Title: Section 90.517 Developmental Operation - Report of Operation.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit; State, Local or Tribal Governments.

Number of Respondents: 100.

Estimated Time Per Response: 2 hour per response.

Total Annual Burden: 200 hours.

Needs and Uses: The recordkeeping requirement contained in 90.517 requires that developmental authorization licensees to file a report indicating the usefulness of such developmental operations when requesting renewal or termination of developmental operations. The information is used by the Commission personnel to evaluate the need for renewal of the applicant's authorization. This information is also used by policy-making personnel to decide the desirability of instituting rulemaking proceedings involving new technologies or new uses of the radio spectrum.

OMB Approval Number: 3060-0299.

Title: Section 94.51 Private Microwave, Time to Construction.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit; State, Local or Tribal Governments; non-profit institutions; small businesses or organizations.

Number of Respondents: 50.

Estimated Time Per Response: .33 hour per response.

Total Annual Burden: 17 hours.

Needs and Uses: The recordkeeping requirement contained in 94.51 requires those licensees who are unable to construct their private microwave stations within 12 months to request an extension of time to construct their facilities. This information is used by FCC personnel to determine whether to grant an extension of time to construct. This notification of failure to construct give the Commission and prospective applicants an accurate picture of current frequency usage.

OMB Approval Number: 3060-0301.

Title: Section 94.113 Private Microwave Station Records.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit; State, Local or Tribal Governments; non-profit institutions; small businesses or organizations.

Number of Respondents: 17,866.

Estimated Time Per Response: .1666 hour per response.

Total Annual Burden: 2,981 hours.

Needs and Uses: The recordkeeping requirement contained in 94.113 requires that private microwave licensees maintain station records that

can be made available to FCC personnel on demand. These records of transmitter measurements and maintenance checks are used by the licensee or Commission field personnel to note any recurring equipment problems or conditions that may lead to degraded equipment performance and/or interference problems.

OMB Approval Number: 3060-0312.

Title: Section 94.27(A)(60)

Application and Standard Forms.

Form No.: N/A.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit; State, Local or Tribal Governments; non-profit institutions; small businesses or organizations.

Number of Respondents: 30.

Estimated Time Per Response: .1666 hour per response.

Total Annual Burden: 5 hours.

Needs and Uses: The requirement contained in 94.27 (A)(6) requires that licensees who contemplate assigning their microwave station authorization to another entity to provide written notification to the Commission so that the Commission may make a public interest determination pursuant to 47 U.S.C. 310(d). This notification is used by FCC personnel to assure compliance with the Communications Act. This information assures that the Commission's database is accurate, thereby enhancing the Commission's ability to resolve interference problems quickly.

OMB Approval Number: 3060-0194.

Title: Section 74.21 Broadcasting emergency information.

Form No.: None.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 1.

Estimated Time Per Response: 1 hour.

Total Annual Burden: 1 hour.

Needs and Uses: In the event of an emergency, Section 74.21 requires that a licensee of an auxiliary broadcast station notify the FCC in Washington, DC, as soon as practicable, when that station is operated in a manner other than that for which is authorized. This notification shall specify the nature of the emergency and the use to which the station is being put. The licensee shall also notify the FCC when the emergency operation has been terminated. These notifications are used by FCC staff to evaluate the need and nature of the emergency broadcast to confirm that an actual emergency existed.

OMB Approval Number: 3060-0170.

Title: Section 73.1030 Notifications concerning interference to radio

astronomy, research and receiving installations.

Form No.: None.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 30.

Estimated Time Per Response: 1 hour.

Total Annual Burden: 30 hour.

Needs and Uses: Section 73.1030 requires licensees to provide simultaneous written notification to the Interference Office at Green Bank, West Virginia, when an application is filed with the FCC proposing to operate a short-term broadcast auxiliary station; or an applicant seeks authority to construct a new broadcast station; or authority to make changes in the frequency, power, antenna height, or antenna directivity of an existing station within the geographical coordinates of the National Radio Astronomy Observatory site in Green Bank, West Virginia; or the Naval Radio Research Observatory site at Sugar Grove, West Virginia. The data are used by the Interference Office to enable them to file comments or objections with the FCC in response to the notification in order to minimize potential harmful interference to the observatories.

OMB Approval Number: 3060-0184.

Title: Section 73.1740 Minimum Operating Schedule.

Form No.: None.

Type of Review: Extension of existing collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 405.

Estimated Time Per Response: 0.5 hours.

Total Annual Burden: 203 hours.

Needs and Uses: Section 73.1740 requires licensees of commercial broadcast stations to notify the FCC in Washington, DC, when events beyond their control make it impossible to continue operation or to adhere to the required operating schedules set forth in this section. In addition, the FCC must be notified when normal operation is resumed. No further authority is needed for limited operation or discontinued operation for a period not exceeding 30 days. Should events beyond the licensees control make it impossible for compliance within the required 30-day time period, an informal written request shall be submitted to the FCC requesting the amount of additional time that the licensee deems necessary. The data are used by FCC staff to authorize temporarily a limited operation or a discontinuance of operation.

OMB Approval Number: 3060-0449.

Title: Section 1.65(c) Substantial and significant changes in information furnished by applicants to the Commission.

Form Number: None.

Type of Review: Extension of existing collection.

Respondents: Business or other for-profit.

Number of Respondents: 6.

Estimated time per response: 1 hour 30 minutes.

Total annual burden: 9.

Needs and Uses: Section 1.65(c) requires broadcast permittees and licensees to report annually any finding or adverse final action that involves conduct bearing on their character qualifications. This information enables the Commission to determine whether broadcast permittees and licensees maintain the requisite character qualifications to be a broadcast permittee or licensee during their license term.

Federal Communications Commission.

William F. Caton,

Acting Secretary.

BILLING CODE 6712-01-F

Notice of Public Information Collections Being Reviewed by the Federal Communications Commission

October 11, 1995.

The Federal Communications, as part of its continuing effort to reduce paperwork burden invites the general public and other Federal agencies to take this opportunity to comment on the following proposed and/or continuing information collections, as required by the Paperwork Reduction Act of 1995, Public Law 104-13. Comments are requested concerning (a) whether the proposed collection of information is necessary for the proper performance of the functions of the Commission, including whether the information shall have practical utility; (b) the accuracy of the Commission's burden estimates; (c) ways to enhance the quality, utility, and clarity of the information collected and (d) ways to minimize the burden of the collection of information on the respondents, including the use of automated collection techniques or other forms of information technology.

Written comments should be submitted on or before December 19, 1995. If you anticipate that you will be submitting comments, but find it difficult to do so within the period of time allowed by this notice, you should advise the contact listed below as soon as possible.

Direct all comments to Dorothy Conway, Federal Communications, Room 234, 1919 M St., NW., Washington, DC 20554 or via internet to dconway@fcc.gov.

For additional information or copies of the information collections contact Dorothy Conway at 202-418-0217 or via internet at dconway@fcc.gov. Copies may also be obtained via fax by contacting the Commission's Fax on Demand System. To obtain fax copies call 202-418-0177 from the handset on your fax machine, and enter the document retrieval number indicated below for the collection you wish to request, when prompted.

OMB Approval Number: New collection.

Title: Review of Pioneer's Preference Rules, ET Docket No. 93-266.

Form No.: N/A.

Type of Review: New Collection.

Respondents: Businesses or other for-profit.

Number of Respondents: 12.

Estimated Time Per Response: 10 hours.

Total Annual Burden: 120 hours.

Needs and Uses: The information collected will be used to evaluate existing pioneer's preference requests in proceedings in which tentative decisions have not been made, as well as any new pioneer's preference requests that may be received. Each respondent will be required to submit information to amend their existing pioneer's preference request. This is required by the Second Report and Order and Third Report and Order in Docket 93-266.

Fax Document Retrieval Number: 093266.
